English Lecture

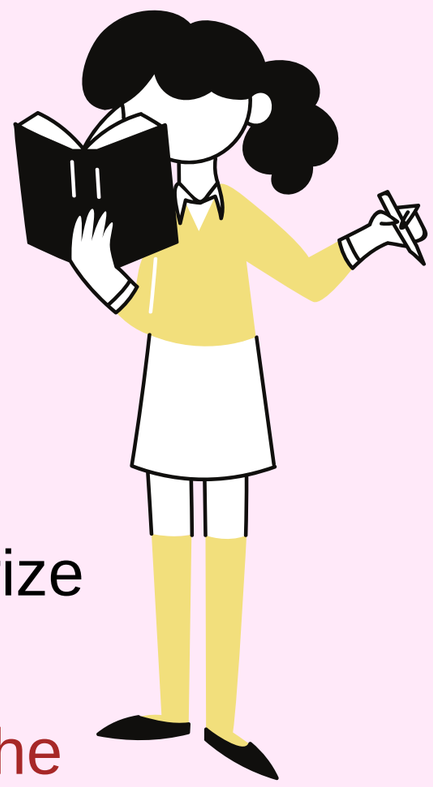
My reflection

Listening, speaking, reading and writing are all necessary steps to learn English, and they are indispensable.
The number of words and readings needs to increase a lot for us, but it is really boring to read in ignorance. So I attended two courses, "English Vocabulary Magic Lecture" and "English Reading FUN Lecture".Using Saturday to improve my English skills, a total of four lessons.

In the grammar and reading section: Teacher Mrs. Su used many articles to help us understand grammar, explained one by one, and directly asked us questions to practice.
Sometimes we had group discussions and translation exercises.Let English no longer be just words on paper, and have more opportunities to interact with people.



In the vocabulary section:Teacher Mrs. Su will organize the words with the same root and prefix and asked us to memorize them together.Of course, words are very important when reading, so our teacher asked us to use the article to learn the words, and the sentences with the plot are easier to remember the words.
After the class, I really learned a lot of reading skills, so that the efficiency of memorizing words and reading is better.
Studying requires methods, and there will be no good results without effort.
Learning is not for the pursuit of results, but for the enjoyment of the process.

My reflection

Start preparing in early October, there were three weeks in total. Five people including Prestine(吳宛如)、Verity(林心彤)、Alison(陳姿樺)、Anny(陳彥安)and I(Linda 余欣玲) were selected to represent the school in the competition. We used the time after class, evening self-study and Saturday to practice. From the preparation of the first draft, recitation of manuscripts, the production of the briefing, rehearsal on stage, to the final presentation of the video. Every step of the way, we were walking on eggshells and doing our best . This is my first time to participate in the competition, and also the first time to show the results of our efforts with a group of students who had excellent English ability.

Although it is a video recording, it was not necessary to face the audience on the spot. We still had one continuous shot to the end. As long as someone made a mistake, we had to do it all over again. It was really recorded time after time.

From nothing to everything, in retrospect, it is full of sense of accomplishment.

Efforts may not have good results, but instead of giving up now, it is better to take the plunge.

The secret of success is constancy of purpose.

Over the past two years, people around the globe are advised to maintain social distancing all the time and even confined home for safety. Without customers, countless numbers of businesses are shut down as a result. Worst of all, the pandemic has claimed nearly five million lives around the globe up to present. Compared with most parts of the world, Taiwanese people had been luckier until this May, when the disease spread like wildfire, and our lives have undergone dramatic changes since then. How is your life disrupted by this wave of pandemic? For people who have difficulty adjusting to life under the current levels of alert, we ELITE 5, would like to "prescribe" some effective "doses." In our presentation, we aim to guide you to lead a happy and healthy life with the aid of your friends, family, activities, and social media. We recommend hanging out with friends ONLINE, seizing the time with family, and developing new hobbies to stay happy during the pandemic. On the other hand, we advise some necessary measures to shield the body and to build up an easy mind against the irritable virus. Trying our "prescription," one will be able to guard against COVID-19 wisely and effectively.

Guarding against COVID-19: Try Our Prescription

Slide 1 Cover Page & Opening

It has been almost two years since COVID-19 broke out in Mainland China in December 2019.
Taiwan had been lucky until this May, when the pandemic spread like wildfire and our lives have come under tremendous changes ever since.
How is your life affected by this wave of disease?
If you have trouble adapting to life under the levels of alert, we are delighted to prescribe some effective doses for you to guard against the pandemic.

Slide 2 Overview

Our presentation is divided into two parts.
On one hand, we will share with you how to stay happy with your friends, family, and hobbies.
On the other hand, we will advise on ways to keep your body and mind healthy during the pandemic.
Please be all your ears!

Slide 3 Hang Out Online with Friends

Though you are asked to avoid going out during COVID-19, you can still hang out with your friends ONLINE.
Make video calls to contact your friends regularly so that you will keep each other updated and feel someone out there always cares about you.
If you feel bored, you may also play interactive games like *the Werewolves* with your friends not only to relieve stress but also to beat your brains.
If you are students, you will have to keep studying as usual. To remain on your task, you may organize study groups for schoolwork with your classmates. This way, the lockdown will make fewer impacts on your learning.

Slide 4 Seize the Time with Family

While the pandemic forces people to study or work at home for long, it also shows us a bright side. That is, we can have more time to get along with our family!
To enjoy the precious moment, we suggest you cook and relish cuisine together. Preparing meals with family helps engage every family member and keep them interacting deeply.
But if cooking is not your cup of tea, you may pick up some movies or TV series that all your family like and go binge-watching. While watching films in the living room, you can have many opportunities to talk to your family.
Of course, you should put your cellphone aside and spend some time talking heart to heart with your family.

Slide 5 Develop New Hobbies

It is wise to make use of the pandemic to develop new hobbies, too.
You can subscribe channels of some YouTubers or download some apps to explore your interests which can be done indoors like sports or baking.
More than that, you may take a "staycation." Staycation means a short break from your everyday routine. During the pandemic, you can choose to explore places or enjoy activities you don't normally experience in your community, for example, walking around your neighboorhood or going on a road trip within hours. This way, you will feel off work or school and still stay clear of the public.

Slide 6 Shield Resistance against COVID-19

A happy life cannot go without a healthy vibe.
To resist the coronavirus, first and foremost, take vaccines and drink enough water.
You should always go with facemasks, prepare alcohol, and check your temperature as well.
To strengthen your body and maintain your shape, remember to take proper exercise like simple aerobics.
It's even better if you can create a sense of ritual for that will gear your body toward a normal daily schedule.

Slide 7 Build Up an Easy Mind

The lasting pandemic is already extremely annoying, so don't push yourself so hard during this period.
Keep in touch with friends or family and share with them your feelings, whether it be pleasant, worried or anxious. They will be your best pillars of support.
Besides, recognize your negative emotions. For example, do not panic or get frustrated by the pandemic. If this happens, things like telling jokes or playing board games can serve as very useful distractors to make you feel better. Pretending to be happy works as well. Researchers found that smiling, even fake smiling, has positive effects on emotions. It is because it will trigger certain facial muscles and increase the levels of hormones such as dopamine and serotonin in our body. That will "fool" our brain that we are feeling good.
Last, stay alert of news about COVID-19 on social media but do not bombard yourself with too many messages. Learn to put down your 3C product at times also helps you build up an easy mind.

Slide 8 Conclusion

During the COVID-19 pandemic, we need a good dose of vaccination, family, friends, and social media to help us guard against the irritable disease.
We hope you take enough of it from our presentation.

Because it is a bilingual class, there are many bilingual activities and bilingual courses. In addition, people outside the school are also very concerned about the effectiveness of our classes. This time, professors from Changhua Normal University visited our school, and visited the class.

Using bilingual teaching in mathematics classes:
It is an enriching and rewarding course to learn mathematics and use English at the same time. I had a lot of maladjustments in the beginning,but after listening to the class carefully, I found a plenty of incredible contents. I hope that my English ability will be further improved due to various bilingual activities in the future.

Before Seminar

In the beginning, the reason why I took part in this seminar that is because I want to polish my English ability and broaden my horizons.

I want to see some other person who achieve their dream has entered the workforce.

However, listening to others tell their stories or their life, that what I really like. Of course, with all of the reason I decided to sign in. And spend my weekend enjoying learning English!

International Career Seminar

During Seminar

It is a great honor for the school to arrange Sunday to connect with lecturer Chi Hao Chang by video, a total of four hours of virtual class was launched.

Mr.Chi Hao Chang is an designer of Instrument company in New York. Although he studied in Taipei famous high school - The Affiliated Senior High School of National Taiwan Normal University. But the life of high school was a painful memory for him. In order to escape the black and white life, he relied on his English ability and love for art. He decided to abandon the "Taipei Shih Chien University " and turn to the foreign universities “School of visual arts” to study art related courses.

Currently, he is a designer who fulfills his dreams. He has a colorful life that is different from the past. Even though the journey is so difficult, he believes that as long as he takes the path he likes the most, all difficulties will be solved.

After Seminar

After participating in the seminar ,I wanna said that the whole seminar didn't disappoint me. I didn't regret to sign in.I learned that "The more you worked , the more likely you are to achieve your dreams." Although my favorite subject not art. I also gained a lot of knowledge from Mr.Chi Hao Chang.

That inspire me to work hard for myself to fulfill my dream.

I realize that English is important for us, it just not only a tool, but also the ability of everyone. Fortunately ,I learn more about the English and increase my ability of English. Since l had the good time than, I choose to participate the other seminar of different fields from now on.

My reflection

This time we visited Ming Chuan University, we watched more than 20 groups of competition groups. The characteristics and performances of each group are different. We benefited a lot from the four hours of competition. Opportunity is always for the ones with good preparation.

Those of us who have participated in the Providence University Cup competition before were all eye-opening. There were really many people who are good at English.

In addition to having a rich and variety report content, also have stable shows, clear pronunciation and teamwork. After watching it, I really felt that our ability was really insufficient. There was still a lot to learn.

I hoped to have the opportunity to visit other schools in the future to increase my experience of watching the competition.

My reflection

This is also my first time accepting the host's challenge. When I was selected as the host list, I thought that maybe this was a big challenge for myself to give it a try and practiced my courage. After confirming,

I started to memorize the manuscript, went through the process, paid attention to every detail and the smoothness of the handover. Having the teacher's encouragement during practice which gives me more confidence to step onto the stage under the spotlight. After the event, I was satisfied with my performance, and there was no problem of forgetting words or not smooth handover.

I have nothing to offer but blood, boil, tears and sweat.

My reflection

The most anticipated English Briefing Competition of bilingual class have finally been published.This Competition has the experience of "Ming Chuan University Visit" and " Providence University Cup Competition", which let us get more familiar with the process. We practiced hard day after day. Such as rehearsed , memorized manuscripts, went on stage, took positions. In this Competition, we tried our best in the parts which were missed in the Providence University Cup Competition.To leave a beautiful memory that we never forget for all our life. Before the competition, we believed that no matter what the final result is, we had to present it perfectly to the best of our ability. Thankfully, our group ended up taking the first place. The joy in my heart was earned by working hard. I felt a sense of relief.Even if the competition was over, I wouldn’t have feeling of emptiness , it was all real and worthwhile.
Thanks all teachers and students who help prepare for the event, and the four team members who accompanied me all the way. Because of you "Elite5" is complete.
